

Flexible, cost-effective messaging for academic institutions

▲ **THE CHALLENGE** - the educational environment comes with very specific messaging needs, both complex and demanding. For these institutions, the first requirement is transparency: electronic communication needs to be straightforward to professors, teachers and other staffers, as well as for students. As messaging also needs to be reliable and efficient, the chosen solution is required to handle traffic varying in both size and frequency, to have persistent availability and maintain the integrity of important and sensitive information.

High-level security policies have to be designed so as to avoid data theft and the destruction of confidential information such as research results and examination results, while ensuring easy access for student dedicated computer rooms where everyone can check their emails freely.

Also, implementing and using a high-end messaging solution can entail practical experience and know-how that can be turned into fresh and valuable knowledge for advanced IT courses and class programs supported by our seasoned professionals.

Financial constraints and the overuse of existing old hardware often lead to having limited choice of solutions able to meet all these requirements efficiently, such as the AXIGEN Mail Server.

▲ **THE SOLUTION** - AXIGEN has developed this educational program as a simple, flexible and cost-effective way for education institutions to benefit from the AXIGEN Mail Server Software and from the AXIGEN team's expertise.

Sharing information, document plans and schedules, exchanging messages is a very effective way to handle collaboration between student communities and groups. This usage scenario is also successfully implemented by modern universities to easily stay in touch with students of multiple groups working on various projects and having several coordinators or advisers.

AXIGEN EDUCATIONAL LICENSE - 50% DISCOUNT

on any purchase of AXIGEN solutions and related support services regardless of the required number of servers in one location. Support services renewals for following years amount to only 25% of the license price per year.

Volume license holders are also eligible for special upgrade pricing. Your institution may purchase upgrades that cover all existing users as specified by the software license.

Customizable Licensing Options:

A perpetual license allows you to purchase as few as a 100 user license at a special price regardless of the chosen AXIGEN Mail Server edition. You simply purchase a license pack to cover your number of users from your reseller. Additionally, you can renew your support and maintenance subscription on a yearly basis.

The subscription license allows you to make use of AXIGEN on all your servers for a 6 or 12 month period. Both subscriptions include 24x7 technical support and software maintenance fees. The Educational Program Agreement is reviewed and renewed periodically. If you choose not to renew you simply delete the solution licensed under the agreement.

PROGRAM BENEFITS

Your membership to the AXIGEN Licensing Program for Educational Institutions is renewed periodically based on **free online registration** forms and grants access for all Educational Organization professors, teachers, other staffers and students to the following benefits:

- ▲ **Supporting seminars and workshops** - the AXIGEN Licensing Program for Educational Institution also strives to provide the latest technological news and know-how by supporting, taking part in and co-organizing seminars, certification classes and professional development workshops.
- ▲ **Support for final papers** - full product literature, 24x7 support and NFR (Not for Resale) Licenses are available on request for all students and/or teaching assistants that intend to specialize in or coordinate messaging and security related papers and research.
- ▲ **Access to ACE (AXIGEN Certification Exam)** for relevant teaching personnel and students interested in achieving the official recognition of their advanced messaging skills.
- ▲ ACE certified members are invited to take part in challenging **AXIGEN Beta Testing Programs**, which can bring stimulating awards while granting upgrades to enhanced software versions for the entire organization.
- ▲ **Free 24x7 technical support** included in license pricing for the first year and in ongoing maintenance fees - covers the entire AXIGEN messaging campus set-up used by the organization to communicate and collaborate permanently, effectively and easily with all its professors, teachers, other staffers and students.
- ▲ **Program Extension to cover all affiliate educational organizations.** License arrangements can extend the AXIGEN Licensing Program for Educational Institutions to cover all registered affiliate centers and all educational partners of your organization.

Special Offer

SOLUTION BENEFITS - the integrated AXIGEN, cross-platform messaging and sharing solution helps teachers and students to create, communicate, congregate. The reliable, worldwide proven AXIGEN technology with leading and repeatedly awarded performance is backed up by a team with more than 15 years of experience that fastly adapts to new demands through proactive development and educational research involvement.

AXIGEN is committed to supporting educational systems around the world in their mission to forge the decision makers of tomorrow's messaging industry. Our long term growth objectives are interlinked with the personal development plans of today's students, therefore we strive to support EDU Organizations by providing high-end innovative messaging solutions.

OTHERS ABOUT AXIGEN

“ Axigen, a Fresh Approach for Mail Server Admins

Axigen Mail Server delivers a comprehensive, turnkey mail server in a DIY world. With one software install, Axigen promises to provide a fully integrated, centrally managed server with support for core mail services plus groupware and collaborative services like calendaring, tasks and Outlook support.

ServerWatch.com

“ Exchange Replacement for Linux

Axigen Mail Server 4.0 is a solid messaging solution, with a fast and easy installation. No extensive command line knowledge is necessary, since the system administrator can manage almost everything through the WebAdmin interface. The user manual is professional, comprehensive and well-illustrated.

TEC Channel

Easy and Secure Communication

- ▶ Create user groups and mailing lists in order to simplify communication flow. Thus you can differentiate between professors, teachers, students and other staffers, as different lists and groups can be created to meet specific requirements
- ▶ Manage all personal, public and domain contacts in an efficient way
- ▶ Efficient storage management: single storage of emails sent to multiple recipients (particularly useful for distribution lists and groups)
- ▶ Multiple AntiVirus and AntiSpam scanners support, including open source applications, can be applied selectively to groups of users.

Cost-Effective Investment

- ▶ Comprehensive licenses for educational institutions at especially favorable conditions, including free updates, upgrades and 24x7 support
- ▶ Fast, resource-saving delivery technology which reduces the load on servers and networks. Existing systems can be used for a longer time
- ▶ Transparent licensing, without hidden costs
- ▶ No additional costs associated with changing operating systems or hardware platforms.
- ▶ Fast administration by automated workflows and WebAdmin management
- ▶ Easy to learn, fully documented solution, backed by outstanding technical support
- ▶ Combining the power of UNIX with ease of use, Axigen offers compatibility and competitive cost for learning systems.
