ADDITIONAL NOTES

¹ Premium users refers to the number of premium mailboxes / users in the Axigen license.

² Basic users refers to the number of basic mailboxes / users included in every purchased Axigen license. The basic users can be included either for free or as part of a commercial add-on (e.g. "Extra Basic Users" Add-on, "Mass Basic Users" Add-on)

³ For SP licenses, the number of free basic email users equals the number of premium users specified in the purchased license (e.g. by purchasing a single server SP license of 1,500 premium users, you will get 1,500 basic users for free).

⁴ The maximum number of domains cannot exceed the maximum number of premium users specified in the messaging solution license.
